Water Measurement and Reporting Course

Senate Bill 88 requires that all water right holders who have previously diverted or intend to divert more than 10 acre-feet per year (riparian and pre-1914 claims), or are authorized to divert more than 10 acre-feet per year under a permit, license, or registration, to measure and report the water they divert. Detailed information on the regulatory requirements for measurement and reporting is available on the State Water Resources Control Board [Reporting and Measurement Regulation](#) webpage.

The legislation as written requires for diversion (or storage) greater than or equal to 100 acre feet annually that ***installation and certification*** of measurement methods be approved by an ***Engineer/Contractor/Professional***. Diverters across CA were concerned about this requirement. California Cattlemen's Association heard from their membership and worked with Assemblyman Bigelow on a bill that would result in a self-certification option. Assembly Bill 589 was passed and became law on January 1, 2018.

This bill, until January 1, 2023, allows **any diverter**, as defined, *who has completed this instructional course on measurement devices and methods administered by the University of California Cooperative Extension*, including passage of a proficiency test to be considered a qualified individual when installing and maintaining devices or implementing methods of measurement. **The bill requires the University of California Cooperative Extension and the board to jointly develop the curriculum for the course and the proficiency test.**

At the workshop you will :

- Clarify reporting requirements for ranch
- Understand what meters are appropriate for different situations
- Learn how to determine measurement equipment accuracy
- Develop an understanding of measurement weirs
- Learn how to calculate and report volume from flow data

These trainings will move fast and will include a proficiency test. We encourage family/staff members attendance. Feedback from participants indicates that the material presented has been useful in complying with SB88.

Registration is required. There is a fee of \$25

DATE: Monday, July 9th, 2018
TIME: Noon to 3:00 p.m.
**LOCATION: Modoc District
Fairgrounds, Cedarville, CA**

Lunch sponsored by: Modoc County Farm Bureau
